

Sub E² 15. (AMENDED) An isolated nucleic acid molecule encoding a localization signal of a glycosyltransferase selected from the group consisting of MNVKGR (SEQ. ID. No. 11), MNVKGK (SEQ. ID. No. 12), and MVVKGK (SEQ. ID. No. 13).

REMARKS

This paper is being filed in response to the Examiner's Communication mailed October 10, 2000. In response to the Communication and in accordance with the requirements of 37 C.F.R. § 1.821 - § 1.825, Applicants enclose herewith a replacement computer readable form of a Sequence Listing. In addition, a replacement paper copy of the Sequence Listing is also provided. Please replace the computer readable copy and paper copy previously submitted on July 10, 2000 with the copies provided herewith. Applicants hereby state that the computer readable form and the paper copy of the Sequence Listing are the same and do not include new matter.
